

## White Acoustic Ceiling Tiles

**Soundsulate White Acoustic Ceiling Tiles** are an excellent choice for absorbing sound within a room. Great for small businesses, restaurants, home theaters, offices, studios, or anywhere you are looking to reduce the noise, reverberation and echo in a space. With Soundsulate™ Acoustic Ceiling Tiles, building a drop grid ceiling with excellent sound absorption properties is now more effective and more affordable than ever. They fit into a standard ceiling grid and can be cut easily with a utility knife. The backside of the tiles are made from high quality soft fiberglass and then finished with a rigid, crisp white non-woven fabric. In both residential and commercial applications, Soundsulate™ White Ceiling tiles creates a sharp and attractive look. Achieve NRC values of up to 1.0 by easily installing these lightweight grid ceiling tiles.
